

Recognizing Product Innovation

About

The Architectural Products magazine Product Innovation Awards—or the PIAs, as we've come to know them—collect, review and present to readers—architects, specifiers, interior designers and building owners/operators—a wide-ranging variety of innovative buildings-related products as judged worthy of distinction by industry insiders.

The PIAs move to the forefront the manufacturers bringing innovative concepts, products and systems into architectural space. Of the thousands of new and improved product ideas brought to market each year, the PIA winners are representative of the very finest.

Who Should Enter:

Manufacturers of products, materials and systems that offer attributes, qualities, design, functionality and/or performance beyond the recognized standard. Products entered do not need to be “new” to the market.

- ▶ Enter to be recognized for your industry leadership
- ▶ Enter to bring your products to the forefront
- ▶ Enter to showcase your product in application

Winners' Coverage

Each of the PIA recipients will be honored with editorial mention in the November 2019 issue of Architectural Products magazine.

- ▶ **Editorial:** All winning products will be covered editorially in the featured special report (product image plus brief write-up.)
